SLALOM POLE SIMPLE SPIKE

The Slalom Pole Simple Spike 170 Cm is a pole features a traditional design with a 25mm PVC tube and an aluminum spike. The 180cm length, including the spike, makes it suitable for users of all ages. The spike's tip is covered with a removable cap for safety. Whether for setting up agility drills or obstacle courses, this versatile and durable pole is perfect for various training and recreational activities.

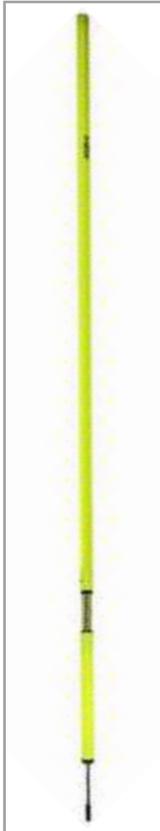

ART. 1200001200

PREMIUM SLALOM POLE SIMPLE SPIKE

The Premium Slalom Pole Simple Spike is designed for professional teams and athletes, featuring a traditional shape and heavy-duty PVC construction. The stainless steel spike includes a removable cap for user safety. With a 32mm diameter and a length of 170cm (180cm with the spike), this slalom pole meets the technical requirements for professional use. Its durability and performance make it a top choice for training drills.

ART. 1210001200

PRO SPRING SLALOM POLE

The Pro Spring Slalom Pole is designed to provide a stable training experience. Its 25 mm PVC construction, combined with an elevated spring at 25 cm from the base, offers durability, resistance, and reduced swinging motion. The poles are 170 cm in length without the metal spike, and 180 cm with it. Overall, the Pro Spring Slalom Pole is a popular and reliable option for training on football pitches.

ART. 1200014200

RUBBER BASE CLASSIC

The Rubber Base Classic, made of high-strength rubber, is specifically engineered for installing 25mm diameter training poles. With a weight of 1.5 kg, a diameter of 24 cm, and a height of 14 cm, this base provides a stable foundation for training poles during training. Its durable construction allows for use in both indoor and outdoor environments, making it suitable for any surface.

ART. 1200000200

RUBBER BASE 2 HOLE

The Rubber Base-2 Hole is designed for stability and convenience during exercise sessions. It weighs 1.5 kg, ensuring it remains firmly in place, and its high-strength rubber construction allows for both indoor and outdoor use. With a diameter of 22 cm and a height of 8 cm, the base provides a sturdy foundation for the installation of two 25mm diameter training poles at the same time and in different directions. This makes it versatile for a variety of exercise routines.

ART. 1200023200

RUBBER BASE SHORT

The Rubber Base Short has a short top, making it easy and convenient to install. The poles suitable for use with this base have a diameter of 25mm. The base itself is a sturdy high-strength rubber construction, weighing 1.3kg and with a diameter of 23cm. This durable base is suitable for use both indoors and outdoors, offering versatility for training in various environments.

ART. 1200033200

RUBBER BASE MULTI DIRECTION

The Rubber Base-Multi Direction is designed for stability and convenience during exercise sessions. It weighs 1.5 kg, ensuring it remains firmly in place, and its high-strength rubber construction allows for both indoor and outdoor use. With a diameter of 22 cm and a height of 8 cm, the base provides a sturdy foundation for the installation of three 25mm diameter training poles at the same time and in different directions. This makes it versatile for a variety of exercise routines.

ART. 1200003200

MULTI ANGLE DOME BASE

The Multi Angle Dome Base has an innovative design that allows for versatile configurations, accommodating 25mm and 30mm training poles, slalom poles and flat agility rings. The option to fill the base with sand or water ensures stability during use, while the design also allows for the attachment of equipment from different angles, enabling a wide range of exercises. With a 20cm diameter and 10cm height, the base is compact and portable, making it a convenient addition to any training regimen.

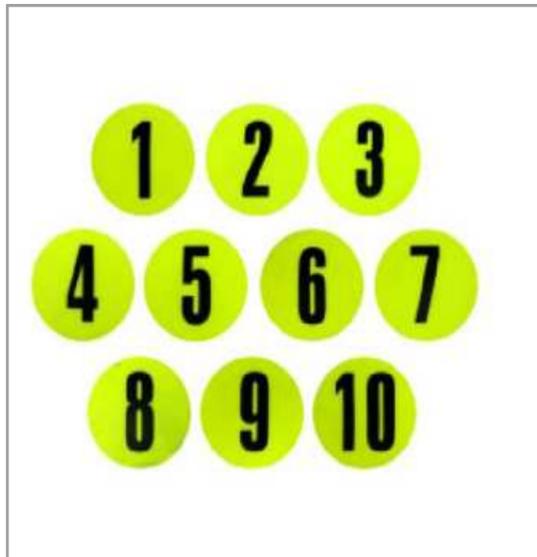

ART. 1200025300

MARKER CONE OCTAGON SET OF 50

The Marker Cone Octagon Set with an innovative octagonal design, specifically crafted for agility training and speed drills. These markers are made of soft plastic, providing durability and safety for athletes. They can be used with training poles to assemble hurdles of different heights. Each marker measures 5 cm in height and 20 cm in base width. The set includes 50 pieces, and a special stand is provided for convenient storage and transportation. These markers are versatile and suitable for various sports, making them an essential training tool for coaches and athletes alike.

ART. 1800005060

FLAT NUMBER MARKER SET OF 10

The Flat Number Marker Set is a set of 10 anti-skid flat markers, an essential tool for training and coaching in various team sports. Each marker is constructed from TPR material and is 12.5 cm in diameter, featuring printed numbers 1 through 10. The anti-skid design ensures stability during use, while the flat structure minimizes the risk of tripping and injury. These markers conveniently come in a branded bag for easy storage and portability. Perfect for enhancing player movement and coordination on the pitch.

ART. 2002005004

MINI SPACE MARKER SET OF 30

The Mini Space Marker Set consists of 30 flexible, multi-purpose markers in vibrant colors. Each marker is made of high-quality soft plastic and measures 3.5 cm in height with a 13 cm diameter at the base. The set includes markers in three different colors, providing versatility for various applications. Some coaches like using them to complicate training tasks on a pitch or a court.

ART. 1803025160

FLAT MARKER WITH HOLE SET OF 10

The set of Flat Markers with holes is a set of non-slip flat markers and is a practical training product for athletes. The rings design allows for quick and easy collection, and with the ability to store approximately 50 markers on your arm at once, setting up and tidying away training sessions are fast and efficient. These markers are non-marking and can be used on a variety of surfaces, making them perfect for indoor and outdoor workouts. The set includes 10 markers, each with a 19 cm diameter and made of soft and flexible TPE material, ensuring durability and safety during use. The 9 cm hole diameter adds to their functionality, making them easy to store. The bright color of the markers enhances visibility in a range of weather conditions, providing convenience for athletes during training sessions. The set comes with a branded mesh carry bag, keeping the markers organized and easily portable.

ART. 2102005004

REBOUNDERS

DUAL REBOUNDER ELITE

The Dual Rebounder Elite is a high-strength 32mm steel tube rebounder with a powder protective coating, which enhances its durability. Its design allows for five adjustable angles of inclination, providing versatility for various workout sessions. Each side of the rebounder is 1m x 1m and features nets with different tension levels. The base of the rebounder is equipped with rubber pads to prevent slipping on any surface. This rebounder offers stability, durability, and versatility for a wide range of workout routines.

ART. 1500112130

THREE-SIDED REBOUNDER ELITE

The Three-Sided Rebounder Elite is innovative sports rebounder features a sturdy 32mm steel tube design with powder coating for enhanced durability. With three 1m x 1m sides, each equipped with a different tension net, it allows for simultaneous training on multiple sides. The fully assembled and compact design makes it easy to transport and store, while the rubber pads on the base provide stability on any surface. Ideal for many team sports training, this versatile and durable rebounder is an essential tool for athletes at all levels.

ART. 1500013230

DUAL REBOUNDER ELITE WITH BLACK FABRIC

The Dual Rebounder Elite with black fabric is a versatile and durable equipment. Its ability to adjust to six different angles of inclination makes it ideal for varying workout sessions. One of the sides of the rebounder is made with heavy-duty fabric, making it suitable for use with various types and sizes of balls. This feature adds a lot of versatility to the product, allowing for a wider range of training regimes. Constructed from high-strength 32mm steel tube and featuring a 1m x 1m size, the rebounder is built to withstand intense workouts and heavy use. The protective coating adds an extra layer of durability, ensuring that the product will last for a long time. The non-slip rubber pads make it safe to use on any surface, reducing the risk of slipping or accidents during workouts. Additionally, the foldable design makes it easy to store and transport.

ART. 2000300130

ONE-SIDE REBOUNDER ELITE

The One-side Rebounder Elite is constructed with 32mm steel tubing and a protective powder coating for enhanced durability and rust resistance. Its adjustable design allows for different workout angles, and it includes a 1m*1m durable net on one side. The base is equipped with rubber pads to prevent slipping on various surfaces. Its robust and portable design makes it suitable for both indoor and outdoor use, and it is easy to assemble. This rebounder offers stability, versatility, and convenience during training sessions.

ART. 1500112131

REBOUND BOARD 120 X 60 CM

The Rebound Board is an essential piece of equipment for soccer players looking to improve their skills. Designed for both professionals and amateurs, this high-quality board is made of impact-resistant polypropylene composite material, ensuring durability and weather resistance. It can be used at two different angles and features foldable legs and special holes for convenient transportation. With dimensions of 120x60 cm and weighing 16 kg, the Rebound Board is compact and portable, suitable for use on soccer fields or courts. Its black color makes it stand out, and its simple installation and usage make it a convenient and effective training tool for players aiming to take their skills to the next level.

ART. 1901200160

GOALKEEPER REBOUNDER ELITE

The Goalkeeper Rebounder Elite is a must-have for goalkeeper training, this rebounder boasts a sturdy metal frame with a powder coating and a robust net made of wear-resistant fabric. With two handles for a better grip, it allows for adjustable angles to vary training exercises. At a convenient size of 60*60 cm, this rebounder is perfect for honing goalkeeping skills during training sessions. Improve reflexes, handling, and versatility with this durable and reliable goalkeeper training rebounder, ideal for simulating game scenarios and enhancing performance on the field.

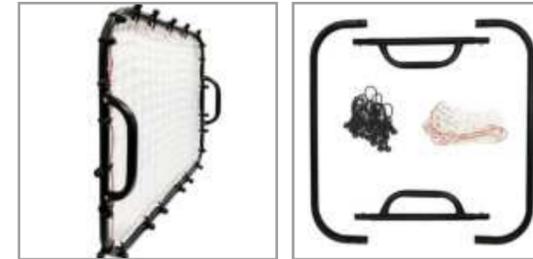

ART. 1500242230

COLLAPSIBLE MINI GOAL KEEPER REBOUNDER

The Collapsible Goalkeeper Rebounder is designed to help improve goalkeepers playing skills. It features a sturdy metal construction with a net and a powder-coated finish, ensuring long-lasting performance. The rebounder's fully collapsible design allows for easy transportation and storage, making it a practical training tool for athletes. With two handles for a secure grip and adjustable angles, it offers versatility and customization in training sessions. Measuring 80 cm * 80 cm, it is deal for football goalkeepers and other athletes who are going to enhance hands strength and reaction.

ART. 2000250235

ONE-SIDE REBOUNDER

The One-side Rebounder is constructed with 25mm steel tubing and features a protective powder coating, making it highly durable. It offers adjustable angles of inclination for versatile training. The functional design includes a 1m x 1m surface area and a sturdy net. The base is equipped with rubber pads to prevent slippage on various surfaces. The rebounder is easy to assemble and disassemble for convenient storage and transport, making it suitable for a range of sports training such as soccer, basketball, and handball. This kind of rebounder provides durability, functionality, and flexibility for athletes of all skill levels.

Measuring 180 cm * 60 cm * 1.2 cm, the mat is filled with a 10 mm EP sheet for stability. Its design makes it easy to fold for storage and transport, and it comes with a branded carry bag for added convenience. This mat is perfect for all kinds of outdoor workouts.

ART. 2000501005

FOLDING MAT

The Folding Mat is a versatile exercise accessory designed for use both indoors and outdoors. It is ideal for yoga, pilates, stretching, and other floor exercises. Constructed with durable vinyl fabric and a foam sheet interior, this mat provides a comfortable and non-slip surface for added stability during workouts. Its folding design allows for easy storage and transportation, while the carry handle makes it convenient to take with you on the go. Measuring 180 cm * 60 cm * 4 cm, the Folding Mat offers ample space for various exercises.

ART. 2000501004

AEROBIC STEP PLATFORM

The Aerobic Step Platform is a versatile fitness tool suitable for aerobic training, cardio exercises, and strength workouts. It enables users to perform a wide range of exercises including planks, crossovers, jumps, lunges, push-ups, and more, making it a multifunctional piece of equipment. Additionally, it features a non-slip surface and 4 rubber feet for stability and can support loads of up to 120 kg. With an adjustable height ranging from 10 to 15 cm, it caters to users of varying fitness levels. Its compact and lightweight design (68 x 28 x 10 cm, 2.5 kg) makes it convenient for storage and transportation.

ART. 1600002101

SOFT PLYO BOX SET

The Soft Plyo Box Set is a versatile and essential tool for jump training, specifically designed to build leg power and improve explosive performance. This set consists of four plyo boxes of varying heights and colours (15cm, 30cm, 45cm, and 60cm), all constructed with heavy-duty vinyl fabric and packed with high-density EVA sheet for durability and safety. Each box features Velcro straps for secure stacking and connectivity, ensuring stability during intense workouts. Suitable for athletes, fitness enthusiasts, and individuals seeking to enhance their lower body strength and agility, these soft plyo boxes provide a safe platform for plyometric exercises such as box jumps and depth jumps, facilitating improvements in vertical jump and speed. Whether used in home conditions, the gyms, or professional training facilities, this set offers a reliable and effective solution for improving overall athletic performance.

ART. 2006121824

METAL PLYO BOX SET

The Metal Plyo Box Set is designed to help athletes improve their speed, power, and vertical jump. Whether you're a professional athlete or a fitness enthusiast, these metal plyo boxes are an ideal training tool. Each box is made of heavy-duty steel and has a non-slip top surface for safety. The set includes three boxes of different heights (30 cm, 45 cm, and 60 cm) that can be stacked for easy storage and transportation.

ART. 2012182400

3 IN 1 SOFT PLYO BOX

The 3 In 1 Soft Plyo Box is an equipment for plyometrics, also known as jump training. It is a type of exercise aimed at increasing muscle power and speed-strength through explosive movements. It is focused on rapidly transitioning from muscle extension to contraction through various jumping exercises. The 3 In 1 Soft Plyo Box offers three height options (51 cm, 61 cm, and 75 cm), constructed with heavy fabric and EP foam sheeting for durability and stability. It is important to use proper form and technique to minimize the risk of injury, as plyometric training can put strain on joints. Incorporating plyometrics into a training program can be beneficial for improving explosive power and agility.

ART. 2000303001

FITNESS BALL

The Fitness Ball comes in two sizes, with diameters of 65 and 75 cm, and is made of durable PVC. It is a versatile tool ideal for home workouts, warm-up routines, and rehabilitation exercises, and effectively helps relieve tension from the lumbar region, strengthen back muscles, and other muscle groups. The Anti-Burst system ensures the ball is durable and safe to use, providing peace of mind during workouts. The anti-slip surface properties ensure stability and prevent accidents while exercising. With a maximum load of 150 kg, this Fitness Ball can accommodate users of different ages and body types, making it suitable for a wide range of people.
